Subject: [External] FOR YOUR USE: Vermont Public Utility Commission Report to the Legislature on EV Charging Fees
Attachments: EV Supplemental Report Cover Letter.pdf; EV-Supplemental-Report.pdf

Greetings.

This email and attached documents are being sent on behalf of the Vermont Public Utility Commission.

Please see the attached cover letter from Vermont PUC Chair Anthony Z. Roisman regarding the subject report (PDF also attached); [the report also is available](#) on the Vermont [PUC website](#).

We look forward to hearing your input on the report.

Kindest regards,

Victoria Hudson, Executive Assistant

**State of Vermont
Public Utility Commission**

10 December 2019

Dear Colleague:

Enclosed is a copy of a report prepared by the Vermont Public Utility Commission that primarily addresses the question of when and how electric vehicles should pay their fair share of highway maintenance costs. This report is a supplement to our June 2019 report into promoting electric vehicle ownership and use in Vermont. Once again our staff had the benefit of testimony and information provided by nationwide stakeholders and have assembled a wealth of valuable information that may be of assistance to you and your staff. Additional materials, including all the filings received by the Vermont Public Utility Commission, can be found using ePUC, the Commission's online filing and case management system.

To access these materials, go to [ePUC, the PUC's online document management system](#), and follow the instructions for logging in as a guest. Once you are logged in, use the search by case number function to search for Case No. 19-3009-INV. When you arrive at the case page use the "All Other Documents" tab to find materials filed by case participants and the "Commission Issued Documents" tab to find all documents issued by the Commission.

As you will see in this report, there are a number of possible answers to the questions related to electric vehicle payments for highway maintenance. We would greatly appreciate any information you have on the approaches your state is considering in addressing those questions. Please submit any information as a public comment in Case No. 19-3009-INV. To file a public comment, go to the case page as described above, click on the "Select Action" drop-down menu near the top of the page, select "Add Public Comment" and follow the instructions. We appreciate your assistance.

Sincerely,

A handwritten signature in blue ink, appearing to read "A. Roisman".

Anthony Z. Roisman, Chair
Public Utility Commission

Enclosure
